As Candidates Successful

WASHINGTON, Nov. 3.—(AP)—Republicans view the off-year election returns today as a signpost on the road which they hope will lead back to the White House in 1944. The democrats were beaten in New York, New Jersey and Pennsylvania.

Pounding Attacks
Allied Troops
Crack German
Line in Italy

LONDON, Nov. 3.—(BUP)—The Vichy radio reported tonight that the Fifth Army had launched a major offensive in the southwestern sector of the Italian front.

BY HARRISON SALISBURY
Exclusive to the Edmonton Bulletin
Allied Headquarters, Algiers, Nov. 3.—The German line below Rome is breaking before pounding Allied attacks and the enemy has begun an orderly retreat northward, it was announced today.

Fifth Army spearheads, fighting through heavy Nazi tanks and machine guns, plunged three miles deeper into the enemy defenses in high ground less than 30 miles south of Rome as the German line designed to delay the march on the Italian capital broke up.

The steady advance by American forces of Lt. Gen. Mark W. Clark's army came as the British-Canadian Eighth Army seized a second bridgehead across the Trigno river on the Adriatic end of the trans-Italy front and Allied aircraft destroyed 37 enemy planes in their biggest big win in weeks.

PRESSURE TELLING
An Allied military commentator said the Allied pressure was beginning to tell and that the German defenses were sagging although the enemy gave up reluctantly but steadily delaying actions all along the line.

The Germans appeared to be dropping back into new mountain defenses above the Garigliano River where they will need additional troops for a longer line, the commentator said, adding the continued on Page 7, Col. 8

Family Break
Told at Trial
By E. V. W. JONES
NASSAU, Bahamas, Nov. 3.—(AP)—A dramatic appearance by Lady Oakes, widow of the slain Sir Harry Oakes, the crown prosecutor at 318 p.m. today its case in the Bahamas Supreme Court against Alfred de Marigny, their son-in-law who is charged with murder.

Thirty-four crown witnesses have testified since the trial opened Oct. 18, and the deposition of another was read.
There was some indication that de Marigny himself might go to the witness stand before the day was over, although this was not certain.

Edmonton Wednesday became the first major city in the Dominion to fill its objective in Canada's Fifth Victory Loan campaign. Alberta's capital city was officially over the quota of \$3,380,000 just before noon with a percentage of 102.

Purchase of \$1,000,000 in bonds by the Alberta government and subscriptions totalling \$274,000 from employees of Aircraft Repair Ltd. sent Edmonton over the top well ahead of schedule in a campaign that has seen citizens in all walks of life rally as never before to the stirring appeal of "Speed the Victory."

The cost of the increase to Canadian employers is estimated at \$100 a week instead of the \$425 a week which has been in effect since August, 1942. Workers who have been receiving 60 cents a week—minimum and compulsory bonus—will get 30 cents.

The maximum bonus now will be \$450 a week instead of the \$425 a week which has been in effect since August, 1942. Workers who have been receiving 60 cents a week—minimum and compulsory bonus—will get 30 cents.

In South Russia
Nazi Armies
Now Are Facing
Annihilation
BY HENRY SHAPIRO
Kiev, Nov. 3.—(AP)—British United Press Moscow, Nov. 3.—Cossack horsemen pounded across the Nipal steppe swept the remnants of the German army into the great sand wastes bordering the Dnieper estuary today, the enemy was expected within the next several days.

The Russians were cutting through the disorganized enemy columns almost bewildering speed and heading the advance into the steadily-narrowing corridor between the Lower Dnieper and the Black Sea for the coup de grace.

The German high command acknowledged establishment of a "new front" today.

Pettain to Speak
NEW YORK, Nov. 3.—(AP)—Marshall Henri Pettain will speak over the Vichy radio of Wednesday and his address will be rebroadcast three times, the Vichy home radio said yesterday.

To the Citizens of Edmonton
Edmonton is over the top in combined quotas. The result to date is as follows:

General sales quota	\$5,775,000
Subscriptions received	4,247,800
AMOUNT STILL REQUIRED	\$ 927,200
Percentage of general sales quota attained	82.1%
Special names quota	\$4,205,000
Subscriptions at time of going to press	5,311,350
SURPLUS	\$1,106,350
Percentage of quota attained	126.1%
Total quota	\$9,980,000
Total subscriptions received	9,559,150
SURPLUS	\$ 420,850
Percentage of total quota attained	101.9%

I am sure every citizen will be happy with the above result. Your committee thanks you. It must be noted, however, that our general sales quota is not yet made. We anticipate approximately another \$500,000 from the Payroll Savings Section, which will leave about another \$500,000 for our salesmen and bank sales. Let us exceed this amount by a wide margin, and show our sons on the fighting front that the army behind the army was never stronger.

R. E. STAPLES,
Chairman City of Edmonton Committee.

In Lost Bomber

Releases Names
Crash Victims
In Northland
Capt. Irwin K. McWilliams, 40 years old, former Civil Aeronautics Authority official in the United States, was the pilot of the bomber which crashed in Yukon Territory Oct. 16.

Before being called to active duty with the U.S. Army in September last year, Capt. McWilliams was stationed in Edmonton for several months, had been chief of the commercial operations section of the C.A.A. in Alaska and during the last five years had logged many of the range stations in that area. Previously he had been connected with the C.A.A. in the United States and had served as C.A.A. inspector in the national air races for several years. He was a graduate of Kansas State College, Lawrence, Kan.

Below-Average
Day Tuesday in
Loan Campaign
OTTAWA, Nov. 3.—(CP)—Tuesday was a below-average day for the Fifth Victory Loan campaign with bond sales totalling only \$68,325,000, raising the cumulative total for four days to go to \$297,238,500—more than \$200,000 above the minimum objective of \$1,200,000,000—national headquarters announced today.

Faced by lagging sales to the general public as compared with payroll and special names subscriptions, loan officials launched an appeal to those who have bought bonds as well as those who have not.

"Buy an extra bond" is the new slogan, aimed at a substantial increase in the aid of the general public at particular.

U.S. Miners Ignore
Back-to-Job Plea
WASHINGTON, Nov. 3.—(AP)—Top authorities on both sides of the latest United States coal miners' strike today rejected a big conference today that was close to 300,000 workers in the fields ignored President Roosevelt's call for return to the government-seized plant.

United Mine Workers' President John L. Lewis talked early this morning with Interior Secretary Harold Ickes, conferred afterward with W. H. Lister, district president, and returned with a group of aides to meet Ickes and the latter's chief assistants in a conference room just beneath the secretary's office.

Ickes was designated as United States mine boss when the government seized the coal mines for a second time yesterday.

Mexican Oranges
On Way to Canada
LAREDO, Tex., Nov. 3.—(AP)—A cargo of Mexican oranges for years have been barred from the United States, are passing through en route to Canada—created in bond. The shipments are in the United States to prevent the United States from the Mexican fruit fly.

BALINAMALLARD, Northern Ireland, Nov. 3.—(CP)—Sir Edward Archdale, a pioneer of agriculture and commerce for Northern Ireland, died at his home here Tuesday at the age of 90.

Showage of Coal May Force Closing Several City Schools

Edmonton schools face the necessity of closing as a result of the strike of coal miners in this district. Rescued coal supplies are extremely limited and lack of fuel may necessitate cessation of classes.

The strike and not enemy action Tuesday night brought about the first prolonged blackout of the war. While London, New York and other points are considering lifting from one black-out, to dimout and "brownout" stages, this city plunged into the "blackout" stage.

The blackout was the result of the strike of coal miners in the Edmonton district, decided by unanimous vote at a meeting held here Sunday and on Tuesday night at 12 p.m. on that date.

Orders for extinguishing of street lights came from Mayor John W. Fry, who on Monday had appealed for the co-operation of residents in conserving power to the greatest extent.

His appeal was followed up by orders to turn on lights except those on Jasper one hour later than usual to be turned on at 7 a.m. instead of at sunrise as usual, and only every second light on Jasper was turned on.

WINDOWS DARK
Stores usually brilliantly lit with thousands of blinding high wattage lights, were darkened today. Stores dressed windows with new goods and promptly shut down.

Overhead stars were shining and a pale quarter-moon shone down but offered little in the way of light.

Report 'Emergency'

I stated above that between Marx and Engels, on the one hand, and Lenin, on the other, there was a period of opposition rule by the Second International. It was the period before the (First World) War, when the catastrophic contradictions of Imperialism had not yet reached a climax and the economic straits of the workers and trade unions proceeded at a more or less "normal" pace.

Strike Emergency
Sales of Coal
Are Restricted
To Single Ton
OTTAWA, Nov. 3.—(CP)—The munitions department announced last night that as an "emergency" measure, created by the western coal strike deliveries of coal to households now are restricted to not more than one ton to a customer, with no one permitted to buy coal for his home if he has more than 15 days or more.

NEW REGULATIONS
Under the new order, a coal dealer or may not deliver coal except to the following:
1. A retail dealer for resale.
2. A rail carrier for his own use.
3. An industrial plant for its own use.
4. A ship's bunkers.

Coal Shortage May Close Up City Schools

Continued from Page One

board decided to transfer coal from the schools to the city hall supplies to those in immediate need.

Strathcona school is in the worst position with only two days supply on hand and Ritchie has approximately three days supply. McCauley, McDougall, Riverdale and Westmount can carry on for ten to ten days on the supplies they now have.

EQUIPPED WITH GAS
McKay Avenue and Victoria Hiza are equipped with gas and have several tons of coal on hand. Other schools have between two weeks and six weeks supply.

The board decided to try and carry on for the balance of this week by transferring coal to schools with the least supply. The board did not strike has not been settled by Friday to call an emergency meeting to decide on the necessity of closing the schools.

In the meantime it was recommended and approved that a resolution be put down in the schools to conserve coal.

The board also suggested that no approval, any suggestion to lower the average heating temperature of all districts, or that the ventilation could be cut 50 per cent after discussion which proved this would not be feasible to the pupils.

The board questioned the superintendent of plant at Strathcona and the caretakers at Strathcona and Ritchie schools had been ordered to have the bunkers kept filled with coal as they were instructed.

The superintendent declared that caretakers had placed their orders repeatedly and had not received deliveries, but that the coal supply was very low.

The superintendent declared that caretakers had placed their orders repeatedly and had not received deliveries, but that the coal supply was very low.

Police reports declared that only an average of one or two nights had been experienced. Only one accident was reported to police, which is less than the average. Other activities usually associated with blackouts, such as thefts and assaults, were conspicuous by their absence.

Perhaps the reason for all this was that the citizens for the most part stayed at home. There were fewer than usual, although there were line-ups at the distribution centres. However, the number of pedestrians on the streets was lower than usual, and those that were out, returned home early.

The unusual aspect of the situation, city without its usual number of lights, caused many comments.

In the meantime, the city continued to stress the gravity of the situation. City schools are in danger of closing. The city of Edmonton has a coal reserve for only a few days and city hospitals have no reserve for only a short period.

NOTHING NEW
Peter Collins, secretary of Sub-District 2, District 2, said here Wednesday morning "there was nothing new on the strike situation."

The miners, he said, were being maintained, and are ready to open at a moment's notice, as soon as the orders are received from Robert Lovett, Calgary, president of the union.

Striking miners are in the same position as most other workers. The burn coal, he said, "Some of the miners have stocked up ahead of time, and others have a few days' supply. The miners are in the same fix as the public."

Hon. Dr. W. C. Ross, minister of health, said Wednesday morning that provincial institutions under his jurisdiction were "all right so far" for fuel supplies.

Actual responsibility of heating government buildings rests with the department of public works. Hon. W. A. Palmer, public works minister, said "the strike will not be a factor for a considerable time to bring us to the bottom of our stock piles."

"We are pretty well fixed for coal supplies. We have anticipated a shortage for some time, and have been getting supplies in all summer."

Supply of electrical energy to towns in the Drumheller valley was resumed at 8 a.m. today, under an arrangement completed yesterday between Canadian Utilities Ltd. and the striking miners.

Calgary Power Company Ltd. is output today to supply Calgary and other customers, but only a small amount of being able to come to the rescue of Edmonton with hydro-produced power through its inter-connecting system.

GUARANTEE COAL
Drumheller valley miners have agreed to guarantee a supply of coal for the Drumheller and Prince Albert plants of Canadian Utilities Ltd. after the end of this month, if the strike continues in force at that time. In return, the company will resume its power and light service to towns in the valley. These towns were cut off Monday.

The cut-off went into effect to conserve reserves of coal which the company has in stockpiles at various mines in the valley. It was done to assure continued operation of the Prince Albert plant, which supplies electricity to a number of military training centres.

The Prince Albert plant has obtained coal from Drumheller for many years. The company coal reserves are believed sufficient to keep both plants operating to the end of November and the new agreement with the miners lessens the fear of having to close the Prince Albert plant.

CANT SUPPLY CITY
The Calgary Power Company would not be able to supply Edmonton with sufficient electrical

Negotiating Strike Talks Are postponed Till Afternoon

Continued from Page One

departure of the union delegates, headed by Robert Lovett, president of District 18 of the United Mine Workers of America, for the west to inform the miners of the government's stand.

It was considered that the stand of Lovett Minister Mitchell will take this afternoon will represent the opinion of the Dominion cabinet, to which he is understood to have reported on yesterday's conversation with the union leaders.

John Stojanik, vice-president of District 18 and a member of the miners' delegation, told British Columbia Press at noon today that absolutely nothing could be said about the negotiations with the labor department until after today's meeting.

"Does that mean there will definitely be a statement after the meeting?" he continued today. "Can't even say that," he replied. "It all depends on what happens."

OTTAWA, Nov. 12.—(AP)—Conferees aimed at settlement of the strike of 8,500 western coal miners in the United States, the government took "emergency" measures to restrict the amount of coal going into Canada, and by limiting deliveries to one ton per car.

The settlement conference was held by Labor Minister Mitchell and representatives of District 18 of the United Mine Workers of America, who are led by Robert Lovett, their district president. Today's conference, originally set for tomorrow, was held postponed.

Mr. Mitchell expressed the meeting was an exchange of views, and that the government was not at all definite as to position.

While Robert Lovett, U.M.W.A. district president, said before the conference Tuesday that the delegation had come to Ottawa without any proposal to place before the government, it was learned on good authority that the use of the word "proposal" was a deliberate attempt to show a desire to negotiate with the government.

The government's attitude, it was understood, was that the National War Labor Board, which has legal authority to make wage adjustments in the mines and in other industries, should not enter into negotiations with the workers' stated out of the strike.

STRIKERS' DEMANDS
The strikers ask for an increase of \$2 a day, two weeks' vacation pay, and an end to the one-half-hour overtime. They have also expressed objection to the National War Labor Board and to the Royal Canadian Mounted Police, which require a "reference" which requires

divisional letters of all non-union workers, and the serious position of the city due to the strike and the need for power and light.

Householders are again requested to conserve to the limit, and Mayor Fry said he was grateful for the response that had been made to this appeal, but consumption remained high.

A considerable amount more conservation could be accomplished.

Mayor John W. Fry stated Wednesday that many residents had not realized the gravity of the situation in Edmonton, and pointed out that unless conservation of power, light and water was practiced by all citizens very serious consequences may follow this lack of cooperation.

CANT TELL
He said that it was not possible to tell how long the strike would last. It was bad business, he said, to say to the public that the city was in a position to conserve to the limit, and Mayor Fry said he was grateful for the response that had been made to this appeal, but consumption remained high.

A considerable amount more conservation could be accomplished.

Mayor John W. Fry stated Wednesday that many residents had not realized the gravity of the situation in Edmonton, and pointed out that unless conservation of power, light and water was practiced by all citizens very serious consequences may follow this lack of cooperation.

BOILER CONVERSION
While conversion of one boiler at the legislative buildings' steam plant is under active consideration, government officials said today they will be "well satisfied" if the gas burner is installed by Christmas.

Availability of special burners required pipe, meters, and other equipment is governed by priorities, and it has been supplied by the gas company and by the government.

It was decided to convert one boiler out of three, to ensure a supply of steam for heating, and light, should coal supplies be short during January and February.

MAY COME FROM STATES
Before end of the strike, an essential power users of Edmonton may be getting their electricity from the United States.

For emergency purposes, Edmonton can obtain electrical power from Calgary, Lacombe and Power Company's plants in the north-western United States.

At present, however, the level is low, and the amount of electricity available will depend on the amount of coal available.

If any emergency arises in coal supply of Edmonton, school or hospital, Peter Collins, secretary of district 18, said "we would immediately advise district head office at Calgary."

University of Alberta's coal supply is "all right," A. W. McCall, said Wednesday morning. "We carry no surplus stock, and have to get our fuel in daily."

U.M.W.A. said "we would immediately advise district head office at Calgary."

in order that new records may be set. The total value of bonds sold to date in the city was \$7,865,130, for 84.1 per cent of the quota.

Celebrating jointly with Edmonton, her larger sister, Wednesday, was Wetaskiwin. The town and district was just over the quota of \$225,000 at 12:30 p.m. Wetaskiwin had the largest dollar quota of any rural unit in the North Alberta area.

Tuesday there were 1,247 subscriptions, which were worth \$336,650.

Two more rural units were reported on the list Wednesday. These are Bowden and Beaverlodge. This makes six rural units that have attained their respective quotas to date.

Quota for Edmonton in the last week was \$89,000.

Alberta itself had sales totalling \$2,120,000, or 75.5 per cent of the provincial quota at the end of 14 days of campaigning Tuesday.

Tuesday's sales were \$1,688,130. The C.N.A.C. training centre at Vermilion carried a victory pennant Wednesday with 90 per cent participation. Other groups in M.D. 13 to win pennants are Edmonton Garrison, Training Centre in the north with headquarters and Calgary Ordnance in the south.

REPORTS THAT THE UNION DELEGATION HAD COME TO OTTAWA WITH THE IDEA OF CONDUCTING ACTUAL BARGAINING NEGOTIATIONS, WERE SCARCELY MENTIONED IN THE PRESS.

Mr. Mitchell expressed the meeting was an exchange of views, and that the government was not at all definite as to position.

Edmonton 1st Major Centre Hit Loan Goal

Continued from Page One

in order that new records may be set. The total value of bonds sold to date in the city was \$7,865,130, for 84.1 per cent of the quota.

Celebrating jointly with Edmonton, her larger sister, Wednesday, was Wetaskiwin. The town and district was just over the quota of \$225,000 at 12:30 p.m. Wetaskiwin had the largest dollar quota of any rural unit in the North Alberta area.

Tuesday there were 1,247 subscriptions, which were worth \$336,650.

Two more rural units were reported on the list Wednesday. These are Bowden and Beaverlodge. This makes six rural units that have attained their respective quotas to date.

Quota for Edmonton in the last week was \$89,000.

Alberta itself had sales totalling \$2,120,000, or 75.5 per cent of the provincial quota at the end of 14 days of campaigning Tuesday.

Tuesday's sales were \$1,688,130. The C.N.A.C. training centre at Vermilion carried a victory pennant Wednesday with 90 per cent participation. Other groups in M.D. 13 to win pennants are Edmonton Garrison, Training Centre in the north with headquarters and Calgary Ordnance in the south.

REPORTS THAT THE UNION DELEGATION HAD COME TO OTTAWA WITH THE IDEA OF CONDUCTING ACTUAL BARGAINING NEGOTIATIONS, WERE SCARCELY MENTIONED IN THE PRESS.

Mr. Mitchell expressed the meeting was an exchange of views, and that the government was not at all definite as to position.

While Robert Lovett, U.M.W.A. district president, said before the conference Tuesday that the delegation had come to Ottawa without any proposal to place before the government, it was learned on good authority that the use of the word "proposal" was a deliberate attempt to show a desire to negotiate with the government.

The government's attitude, it was understood, was that the National War Labor Board, which has legal authority to make wage adjustments in the mines and in other industries, should not enter into negotiations with the workers' stated out of the strike.

STRIKERS' DEMANDS
The strikers ask for an increase of \$2 a day, two weeks' vacation pay, and an end to the one-half-hour overtime. They have also expressed objection to the National War Labor Board and to the Royal Canadian Mounted Police, which require a "reference" which requires

divisional letters of all non-union workers, and the serious position of the city due to the strike and the need for power and light.

Householders are again requested to conserve to the limit, and Mayor Fry said he was grateful for the response that had been made to this appeal, but consumption remained high.

A considerable amount more conservation could be accomplished.

Mayor John W. Fry stated Wednesday that many residents had not realized the gravity of the situation in Edmonton, and pointed out that unless conservation of power, light and water was practiced by all citizens very serious consequences may follow this lack of cooperation.

CANT TELL
He said that it was not possible to tell how long the strike would last. It was bad business, he said, to say to the public that the city was in a position to conserve to the limit, and Mayor Fry said he was grateful for the response that had been made to this appeal, but consumption remained high.

A considerable amount more conservation could be accomplished.

Mayor John W. Fry stated Wednesday that many residents had not realized the gravity of the situation in Edmonton, and pointed out that unless conservation of power, light and water was practiced by all citizens very serious consequences may follow this lack of cooperation.

BOILER CONVERSION
While conversion of one boiler at the legislative buildings' steam plant is under active consideration, government officials said today they will be "well satisfied" if the gas burner is installed by Christmas.

Availability of special burners required pipe, meters, and other equipment is governed by priorities, and it has been supplied by the gas company and by the government.

It was decided to convert one boiler out of three, to ensure a supply of steam for heating, and light, should coal supplies be short during January and February.

MAY COME FROM STATES
Before end of the strike, an essential power users of Edmonton may be getting their electricity from the United States.

For emergency purposes, Edmonton can obtain electrical power from Calgary, Lacombe and Power Company's plants in the north-western United States.

At present, however, the level is low, and the amount of electricity available will depend on the amount of coal available.

If any emergency arises in coal supply of Edmonton, school or hospital, Peter Collins, secretary of district 18, said "we would immediately advise district head office at Calgary."

University of Alberta's coal supply is "all right," A. W. McCall, said Wednesday morning. "We carry no surplus stock, and have to get our fuel in daily."

U.M.W.A. said "we would immediately advise district head office at Calgary."

University of Alberta's coal supply is "all right," A. W. McCall, said Wednesday morning. "We carry no surplus stock, and have to get our fuel in daily."

Sales of Coal Are Restricted To Single Ton

Continued from Page One

supply in which coal not more than 15 days supply may be delivered. Any person holding a special permit must accept for consumption any type of coal which the dealer has available, providing it is suitable for the customers' heating equipment.

A munitions department official said that households who have had coal on order for a long time and undelivered yet will not be able to get more than 15 days' supply, regardless of their standing order.

He added that the order restricting deliveries to not more than one ton to a consumer must help out to get any coal from their dealer so far.

Debate on Council Empire's Present System Of Consultation Declared Satisfactory to Dominion

By SYDNEY GILSON

LONDON, Nov. 2.—(CP).—The present system of consultation between members of the Commonwealth has "proved quite satisfactory" to the Dominions and most of the needs of wartime conditions," Viscount Cranborne, the dominions secretary, told the House of Lords yesterday.

Testify Accused Spent \$100,000 Of Wife's Money

By E. V. W. JONES

NAASAU, Bahamas, Nov. 2.—(AP).—John Anderson, Nassau banker, testified yesterday at Alfred De Marigny's trial for murder that the defendant spent more than \$100,000 he had received from his second wife, Ruth De Marigny.

De Marigny is charged with the murder last July of Harry Oakes, Canadian millionaire, found clubbed and buried on a beach in his bedroom at Oakes, Nassau house, Westbourne.

TELLS OF DEALINGS

Anderson told of De Marigny's financial dealings with his second wife, from whom he was divorced shortly before he married the slain Canadian millionaire's eldest daughter, Nancy. He said De Marigny said before him last June a financial statement showing he had received \$250,000 (about \$300,000) from his second wife since 1940. The banker said De Marigny told him that "aside from some property on Governor's Harbor, he had spent that sum."

Anderson, a friend of De Marigny's, said the accused man asked him to try to arrange a \$125,000 suit threatened by Ruth. The suit had not been filed, he added, and he has knowledge of a compromise agreement.

Lewis Phillips, a bank accountant, testified that De Marigny had an overdraft of \$150,000 (about \$250,000) on July 7.

PAID FRIEND \$31,500

He said that De Marigny paid \$7,000 (about \$13,500) to his friend, the Marquis Georges De Vieuxville, son after he married Nancy. Last April 28, Phillips said, Nancy cashed a check (about \$12,500) to Elia De Marigny. Elia De Marigny is the name of the defendant's mother, who lives on the island of Mauritius. He added that Nancy spent large sums after her marriage.

Servants Warned Against Walkouts

OTTAWA, Nov. 2.—(CP).—The treasury board said last night in a statement that absence from work without leave by civil servants for public demonstrations cannot in future be tolerated and may lead to suspension, although departmental officers will continue to give individual employees or representatives of groups full opportunity to present their claims.

The board said the statement was issued "respecting misunderstandings existing in certain parts of the civil service in regard to reclassification procedure."

The statement outlined the procedure followed for reclassification and promotion of civil servants, and said an examination open to all grade 1 employees throughout the service was held Oct. 6 and that it should not be long before the civil service commission's reports are received by departments concerned.

Aluminum Firm Loss on Sales Said \$1,482,180

OTTAWA, Nov. 2.—(CP).—Sales of aluminum products by Aluminium Co. of Canada to Canadian customers during 2½ years resulted in net loss of \$1,482,180 to the company, Frank H. Brown, financial adviser to the ministry department, testified before a house of commons sub-committee on war expenditures.

A summary of Mr. Brown's evidence, given in camera, was issued yesterday by the sub-committee, headed by H. T. Graham, Liberal member of parliament for Swift Current. The sub-committee is examining Aluminium Co. revenue, power developments at and near Arvida, Que.

Mr. Brown said the company, on sales to Canadian customers, showed a net profit in 1941, a loss in 1942 and a net loss in the six months of 1943.

Troops in Italy Invest \$612,000 In Victory Bonds

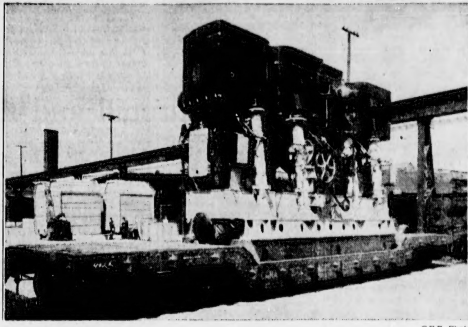

WITH THE CANADIANS ON THE 8TH ARMY FRONT, Nov. 1.—(Delayed).—(CP).—Canadian soldiers and tankmen in Italy have subscribed \$612,000 to date in Canada's Fifth Victory Loan campaign, it was announced at the end of the eighth day of the campaign here.

Predicting the \$1,000,000 objective would be surpassed, organizers reported demand for bonds was so great that additional application forms were printed.

(Canadian military headquarters in London announced Tuesday that the Canadian Army overseas passed its \$2,500,000 objective 12 days after the campaign opened and said money still poured in.)

An average check continues enough hard-earned money to make the stock of a Grand rifle.

Marine Engines Made and Carried by C.P.R.

C.P.R. Photo.

Huge marine engines for Canada's buoy ships are being shown on a Canadian Pacific Railway depressed-centre flat car ready for shipment from C.P.R.'s Angus Shops in Montreal where they have been since the completion of an order there for 1,400 Valentine tanks which war

battle service in Russia and North Africa. In being carried to their destination in Quebec City the engines require special handling to squeeze them past permanent installations such as bridges with advice on their movement being given by the company's engineering department.

Below-Average Day Tuesday in Loan Campaign

Continued from Page One

appeal to all who have bought to examine their earnings, their bank accounts and their spendings, and if at all possible, to buy again."

Dominion Life Assurance Co., Waterloo, Ont., invested \$200,000; Noranda Mines Ltd. and subsidiaries, Toronto, invested \$447,500; Montreal headquarters announced Lake of the Woods Milling Co. Ltd., has bought \$750,000 worth of the bonds; Winnipeg Electric Co. subscribed \$1,500,000; David Spencer Ltd., of British Columbia bought \$750,000; City of Vancouver bought \$750,000 worth of bonds, its largest subscription in any one lot; Richmond, a Vancouver suburb, also invested \$50,000.

Canada's armed forces so far have subscribed \$2,744,750—\$853,100 more than their combined effort in the last loan and 153½ per cent of their original objectives relating \$20,500,000, said loan headquarters. The navy has \$2,125,500, or 152½ per cent of quota; the army \$12,385,200 or 125 per cent; and the R.C.A.F. \$1,156,500 or 145 per cent.

Outdoing all previous campaigns, Atlantic Command of the Royal Canadian Navy broke the \$2,000,000 mark yesterday. It now has bettered 143 per cent of quota.

Eastern Air Command has raised \$143,300.

No. 4 Air Training Command reported a total of \$3,014,200.

Vancouver, listed at 78 per cent of combined general canvases and payroll savings objectives in last night's press release, was reported this morning to have attained 85½ per cent. Percentages for other cities included: Moose Jaw, 79.3; Edmonton, 76.7; Saskatoon, 74.9; Calgary, 66.2; Regina, 65.2; Victoria, 59.2; Medicine Hat, Alta., 53.4, with 99½ per cent of total objective.

Over the list in general canvases is Lethbridge, Alta., 103 per cent.

Tobacco Heiress Sues For Divorce Charging Cruelty

RENO, Nev., Nov. 2.—(AP).—Doris Duke Cromwell, heiress to the Duke tobacco fortune, has filed suit for Nevada divorce from James H. R. Cromwell, alleging extreme cruelty and three years' separation.

The action was filed Oct. 28 but was not disclosed until yesterday. Cromwell, 47, one-time United States minister to Canada has filed suit in New Jersey for separate maintenance which would provide for their property settlement.

Mrs. Cromwell's suit set forth that Cromwell had demanded control of \$700,000 in any property settlement.

Cromwell's demands for financial settlement "have been so high that the plaintiff has been unwilling to assent thereto, and no agreement as to financial affairs have been reached," the complaint said.

City Fliers Bag Plane During Offensive Sweep

LONDON, Nov. 2.—(CP).—R.A.F. and R.C.A.F. Mustangs and Typhoons continued their round-the-clock offensive over France and Holland yesterday, destroying three enemy aircraft and damaging a number of locomotives, a communication said.

Other typhoon and fighters attacked two enemy merchant ships off the West peninsula in France yesterday afternoon to score hits on both vessels and set them afire.

R.C.A.F. Mustangs were credited with shooting down an F.W.109. None of the Canadian planes is missing.

One group of Typhoons penetrated the Paris area, fired on German troops training in a field, shot up several trains, attacked a big and four barges on a river, outraced German fighters after their ammunition ran out, and returned home in time for lunch.

An air ministry communication said one fighter was missing in a brief raid last night and dropped a bomb on a golf course, causing no casualties. In the Thames estuary campaign, however,

Eastern Regiment 10 Nazi Tanks Knocked Out By Canadians at Termoli

By LOUIS V. HUNTER

WITH CANADIAN FORCES IN ITALY.—(Delayed).—(CP).—Ten of the 14 German tanks knocked out in the battle of Termoli Oct. 6—the biggest Canadian tank battle of the war—fell to guns of the Three Rivers Tank Regiment, of the Canadian 1st Army Tank Brigade, it was permitted to be disclosed yesterday.

German Mark IV special tanks, each with a 75-millimetre gun and a new armor shield around the turret, were smashed by the Three Rivers tanks in a daylong slugfest fought at pontonk range in muddy fields and olive groves after a cross-country forced drive of 40 miles.

The Canadians lost only two tanks. Previously the Allied tanks in the engagement could be identified only as 8th Army tanks. An English tank regiment accounted for four of the enemy machines in the action.

The battle was fought near the Adriatic coast just after the right wing of Gen. Sir Bernard Montgomery's British 8th Army forced its way across the Biferno River on its way northwest toward its present positions athwart the Trigno River.

The brigadier commanding the famous Irish Brigade which the Canadians were supporting in a successful attempt to repel the last of several vicious German counterattacks was so pleased with the Canadians' work that he presented a tank squadron led by Maj. Jimmy Walker of Cap de la Madeleine, Que., with a brigade pennant. It was the first time the brigade had bestowed such an honor on another unit.

Walker's squadron knocked out eight tanks, while tanks under Maj. Pat Mills of Toronto got the other two. Another squadron under Maj. C. D. von Straubenzee of Barrie, Ont., drove Nazi machine-gunners and infantry out of a cemetery at the outskirts of the town.

The tank regiment was commanded by five delegates from inside Nashfield France here to attend the inaugural session Wednesday of the consultative assembly—France's first free political forum since 1940—which will be addressed by De Gaulle.

Demand Giraud Publicly Reject All Vichy Ties

By JOSEPH DYNAN

ALGERIES, Nov. 2.—(AP).—A determined effort to reduce the influence of Gen. Henri Giraud, commander-in-chief of the Fighting French forces, was made last night by a group of followers of Gen. Charles de Gaulle who demanded that Giraud publicly renounce all ties with Vichy.

Giraud and De Gaulle are co-leaders of the French Committee of Liberation.

The demand was made by five delegates from inside Nashfield France here to attend the inaugural session Wednesday of the consultative assembly—France's first free political forum since 1940—which will be addressed by De Gaulle.

Taken in action included Lieut. Edward Sheriff, Winnipeg and Earl Shepherd, Saskatoon.

Crack-Up Possible

Germans on Russian Front
Said Losing Will to Fight

By JOHN M. HIGHTOWER

WASHINGTON, Nov. 3.—(AP)—The morale of German soldiers on the Russian front is reported to be worsening steadily, and some authorities here see a possibility of an enemy crack-up in the not too distant future.

This weakening of the will to fight may be speeded by the military results of the Moscow three-power conference, which saw the establishment of an American military commission in Moscow, replacing the old system of military and lend-lease attaches, as well as the brushing away of misunderstanding and difficulties which had stood in the way of fully co-ordinated operations heretofore.

In consequence of these developments the German high command apparently finds itself actually or potentially engaged on all sides, its home front relentlessly battered by ever more powerful bombing

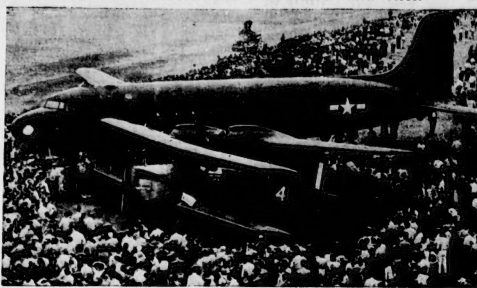

attacks and the will-to-fight of its troops in Russia sinking toward an attitude of defeatism.

The situation recalled the statement Sunday of Viscount Halifax, the British ambassador, that the war in Europe has reached the point where "anything may happen."

REFLECTED IN U.S.

His view, obviously based on information he picked up in his recent visit to London, is reflected in at least some responsible American quarters where the feeling is that the Germans now are clearly faced with ultimate disaster that the weight of the war possibly is becoming more than they can bear.

Round-the-World Planes of Now and Then

Brought out of the mothballs for a comparison with its modern big brother, the single-engine Douglas world cruiser of 1924 vintage looks mighty small beside a four-motored C-54 transport that flies supplies to world fighting fronts. The older plane traveled 29,000 miles in 371 hours; the C-54 does it in 140 hours.

Austria Prepares
"Great Uprising"

LONDON, Nov. 3.—(AP)—Hundreds of Austrian soldiers in the German army were reported last night to be deserting and a leader of the Free Austria movement predicted a "gigantic uprising" of the Austrian people when the Allied armies near the country's border.

Dr. Oscar Pollak, former editor of the Social Democratic newspaper, Arbeiter Zeitung and a spokesman for the Free Austria movement, declared the Moscow conference's decision to liberate Austria would be enthusiastically received in his homeland which, he said, is closer to open revolution than at any time since the Anschluss with Germany in March, 1938.

Both Dr. Pollak and Carl Czernetz, another member of the movement, said they had received reports of hundreds of desertions among Austrian divisions in Norway and Russia. Many Austrian soldiers they said, had succeeded in reaching Stockholm while others had crossed the Russian lines at Murmansk and joined Soviet forces.

New German Torpedo
Tracks Down Victim

HALIFAX, Nov. 3.—(CP)—German U-boats have come up with a new weapon, an "acoustic" torpedo that tracks down its victim by the sound of its propellers, according to men who believe they have seen the new projectile in action.

For security reasons, censorship previously permitted no mention of the audio torpedo. It is believed effective counter-measures have been put into effect.

Newspapermen first heard of the acoustic torpedo after the big September U-boat outbreak that marked the end of a long stretch of comparative quiet on the Atlantic.

It was in this series of attacks on convoy ships that the Canadian destroyer St. Croix was sunk, along with British escort ships and a number of merchant ships.

USED IN ATTACK

Naval officers of one of the Canadian escort ships in the scrap told The Canadian Press on landing at an Atlantic port, they were convinced acoustic torpedoes had been used by the wolf pack of subs that stalked the convoy for days.

The torpedoes, it was thought,

carried a steering device actuated by sound. Once it picked up the sound of a thrashing propeller, it would be guided directly toward that noise, regardless of how its quarry manoeuvred. Eventually, getting close enough to the propellers, it would be touched off by their vibration.

Some of the merchant seamen in the convoy, brought to an east coast Canadian port after their vessels were torpedoed, also were of the belief the acoustic type weapons were used.

New Gun

DENVER, Nov. 3.—(AP)—Development of a 120-millimetre gun which can fire 60,000 feet in the air, was disclosed yesterday by Maj. Gen. L. H. Campbell, chief of United States army ordnance.

"Victory One Minute Sooner May Save His Life"

Buy an

EXTRA BOND!

Destiny is sudden on the battlefield.

Someone is destined to be the last man to fall in the last moment of the war.

Save that moment and you save that man.

He is very dear to someone—perhaps to you.

Victory Bonds help provide our fighting forces with the overwhelming weight of arms to speed the hour when "Cease Fire!" sounds and death stalks the battlefield no more.

You, very likely, have already bought Victory Bonds. But, can you honestly

say to yourself, "Even though life itself depends upon my buying an extra Victory Bond I cannot do so"? Have you completed your final exhaustive probe of heart and mind for the will to buy? Isn't there still a possibility that you could subscribe for one more Victory Bond?

Have you made your last painstaking search for every source of cash? You cannot balance a savings account against a life. Any surplus in your current account will be worth more to you and Canada in Victory Bonds. Perhaps your income for the next six months could yield sufficient surplus

to buy that extra bond on the installment plan.

In these last hours of the Fifth Victory Loan campaign, won't you make one final all-out effort to bring the ultimate moment of the war a little closer yet?

ACT NOW!

Neither a lost moment nor a life can ever be regained. Telephone your Victory Loan salesman or drop in at your Bank without delay. You gain a sound financial investment and the solid satisfaction of helping Speed the Victory.

NATIONAL WAR FINANCE COMMITTEE

Republicans Successful in U.S. Elections

Continued from Page One

Simon Wiley trailing Democrat J. Later Davidson by only few thousand votes with hundreds of districts unopposed.

The big tide of Republican votes led party leaders to predict the doom of the New Deal in 1954.

Harizon Spangier, national chairman, asserted in a statement:

"State after state has now rejected the New Deal. ... Next November, these same voters will turn to a Republican president and a Republican Congress."

Wendell L. Wilkie, Republican presidential candidate in 1940, declared:

"The returns from New York, New Jersey, Kentucky, Philadelphia and other places all point one way. The country is tired—very tired—of the present national administration."

An immediate assumption was that Dewey's stock as the result of Haley's victory would rise considerably in the 1954 Republican presidential convention held in Chicago.

There has been some talk in the party of "drifting" him.

Edey's election in New Jersey gives the G.O.P. a majority of the governorship for the first time since 1928. With his inauguration in January, the party will have 25 of the 48 state executives. They would put the Republicans in control of every populous state outside the "Solid South" except Indiana.

Party leaders were confounded in the New York State Supreme court contest. Thomas A. Aurelio, attacked by David J. Hagan, Frank S. Hogan as having been supported by a big time slot machine operator, appeared the winner even though both major parties had repudiated him.

Free Germans Urge Hitler Be Ousted

NEW YORK, Nov. 3. (AP)—The German-American Bund, a Free German national committee told the German people yesterday that the tripartite conference accord had sealed the doom of the Nazis, and it called on the Germans to overthrow Hitler's government to vindicate themselves before it was too late.

Fireman Is Killed Due False Report

TORONTO, Nov. 3. (CP)—Fireman Thomas H. Marks was killed last night when overcome by inhalation fumes and two men were burned in investigating false reports that three men had been killed bleeding to death in West Toronto.

Fireman Henry Robinson suffered leg burns and Walter J. Connell was burned about the arms and legs.

Waves" and Alice Templeton, amazing pianist. It will be broadcast over all Canadian stations from 9 to 10 p.m., E.D.T., and heard locally over CJCA and CFRN at 7 p.m. Another in this imposing array of artists in Canada's Percy Faith. He will conduct the 40-piece orchestra and choir, presenting some of his own special Faith arrangements.

Bracken Completes Tour of Alberta

extensive to the Edmonton Bulletin PEACE RIVER, Alta., Nov. 3.

An attentive audience that filled the Valley theatre Tuesday heard the aims of the Progressive Conservative party expounded by John Bracken, national leader, who made a flying trip through the Peace River country, the addressed a meeting in Grande Prairie Monday afternoon, arrived at Fairview Monday night, clinching his tour at the point by afternoon meeting.

For upwards of one hour and a half Mr. Bracken outlined the 20 points of his new program. He made no direct promises but appealed to the people's conscience.

He was much impressed during his hurried trip in this country, particularly with the splash on the

(omb) street of "Twelve Foot Davis," situated on the highest point of the Peace banks overlooking the confluence of the Smoky and Peace rivers and stated that he would refer it to in numerous occasions during his tour of Canada.

He told from his record as he had copied it. "He was every man's friend and never looked his cabin door." Mr. Bracken said by car for Mr. Lemmon where he caught the mail bound train as his meeting spread past the time of the train departure from here. T. A. Norris was chairman of the meeting. Dr. F. H. Sutherland, mayor of Peace River, officially welcomed Mr. Bracken on behalf of the town.

Escaped goldfish have been known to reach a weight of two pounds.

More War Brides Land in Canada

By The Canadian Press

New citizens of Canada mingled with the old, and rubbed shoulders with others from when the Dominion is almost a second home, among a group of trans-Atlantic travellers who arrived in this country recently.

The arrivals included several scores of war brides and their children, and a number of Canadian servicemen and others of British officers and men, returning Canadian soldiers, sailors and airmen coming home for short leaves or to permanent assignments.

They were met by a group of British and United Nations merchant seamen.

A large group of officers returned to take a special staff course at Royal Military College, Kingston, Ont., including Capt. F. K. Henson, Vergennes, Alta.

A group of 11 seniors of the Canadian Women's Army Corps also arrived in Canada. Among them were Capt. Helen Rankin of Regina and Capt. Pearl Brett of Calgary.

What's on the Air

The following programs are supplied to The Bulletin by the broadcasting companies and are subject to change without notice.

CFRN—1260 kc. Sunnyside Broadcasting Co. Ltd., Edmonton. CKUA—580 kc. University of Alberta. CFCB—1070 kc. Taylor and Francis Broadcasting Co. Ltd., Edmonton. CBK—540 kc. Watrous, Sask. Prairie regional station of the Canadian Broadcasting Corporation.

Methods of Communism

By Joseph Stalin

Continued from Page One

anal of the Second International to check on its equipment, discarding such weapons as had become rusty and discarded and to force new weapons. Without these preliminary the proletariat could not launch a war on capitalism. It would find itself in the midst of a new revolutionary conflict insufficiently armed, or even completely unarmed.

The honor of performing this check-up and cleaning the Augean stables of the Second International fell to the lot of Leninism. Such then are the circumstances in which the Method of Leninism was born and hammered out. What is the essence of this method? What are its chief demands?

First, that we test the theoretical dogmas of the Second International in the fire of the revolutionary struggle of the masses. We must have the breach between theory and practice and establish a link between them. Only in this manner is it possible to create a truly proletarian party armed with revolutionary theory.

Second, that we test the policies of the parties connected with the Second International not by their dogmas and revolutionary theories, but by their conduct and action. In this manner only can we gain and deserve the confidence of the proletarian masses.

PREPARE THE MASSES

Third, that we organize all parties on a new revolutionary pattern, training and preparing the masses for revolutionary struggle. In this manner only can the masses be made ready for the proletarian revolution.

Fourth, that we encourage self-criticism within the parties to enable the masses to learn from their errors and to profit from their mistakes. In this manner only can the party train men for genuine leadership. Such is the essence of the foundation of the Method of Leninism. Now was this method applied in practice?

The opportunities of the Second International have a number of theoretical dogmas which, in the main, they honor more than in performance. We shall examine some of them.

Their first dogma is concerned

ed with the question under which conditions the proletariat should seize power. These opportunities try to convince us that the proletariat cannot and ought not to take over the government. It does not by itself constitute a majority in the country. They give the proletariat a theoretical, not practical, reason for this absurd thesis.

Lenin answers the gentlemen of the Second International in the following manner. Suppose, he says, a historic situation has arisen, such as war or an agrarian crisis, which gives the proletariat, who is still in the minority, the opportunity to rally about the proletariat. It is obvious that the proletariat take over the government? Why should not the proletariat avail itself of such a favorable internal and foreign situation to break through the front of capitalism and bring about a general crisis? Has not the experience of the proletariat revolution in Russia shown that this favorite dogma of the heroes of the Second International is void of any significance for the proletariat? It is obvious that the experience of the revolutionary masses struggle smashes this dogma of the gentlemen.

TRAINED PERSONNEL

Their second dogma asserts that the proletariat will not be able to retain power, after taking it, if it is not on hand a sufficient staff of trained cultural and administrative personnel to run the country. They insist that it is necessary to create an official group under the capitalist and to take over the government after them.

Lenin answers these gentlemen. But why is it not possible to work things the other way around? First take over the government and create favorable conditions for the proletariat and then proceed with the league boots to raise the cultural level of the proletariat. It is not to create from among them large numbers of capable leaders and administrators. Has not the experience of Russia shown that under the political situation similar meetings with workers themselves grew up a hundred times faster and more efficiently than under a capitalist regime? Is it not evident that the

PRIVATE GREGER ABROAD

"Boy, is it dead around here! Wish somethin' interestin' would turn up!"

revolutionary experience of the Russian masses completely discounts this dogma of the gentlemen.

PRACTICE DANGEROUS

Their third dogma asserts that the methods of the general political strike cannot be adopted by the proletariat. (In its struggle with Capitalism because it is theoretically unground and in practice dangerous. Quoting Engels they assert that the general political strike may disturb the normal economic life of a country and may weaken the trade unions by exhausting their funds.) The general political strike, they assert, cannot be made a substitute for parliamentary action and must remain the chief weapon of the proletariat in its class struggle.

The followers of Lenin answer. But first Engels criticized not any, and every general strike, but only a certain kind of general strike—the general "economic" strike which he described of his day. He wished to substitute for the political struggle of the proletariat. His criticism was not directed at the "political" general strike. Second, where was it shown that the parliamentary struggle is the principle method of struggle of the pro-

\$6,000,000 Surplus Is Shown by B.C.

VICTORIA, Nov. 3.—(CP)—British Columbia's public accountants announced yesterday that Premier John G. Bennett's government had a surplus of more than \$6,000,000 in the fiscal year ending March 31, 1942.

A reduction of \$12,380,837 in the gross debt of the province is also shown. Hart pointed out that the gross debt amounted to \$133,734,486 and the sinking funds totalled \$12,384,486 which left a net debt of \$121,353,000 at the end of the year. In the gross debt, but a reduction of \$10,000,000 of the net debt is smaller by \$12,384,486.

Underground Nazi Movement Is Plan If Germany Falls

STOCKHOLM, Nov. 3.—(AP)—Travelers from Germany reported yesterday that plans are under way there to foster a secret underground movement in the event Germany is forced to capitulate under military defeat. The newspaper Handels- och Exporttidningen of Göteborg said it learned that instructions had gone out to local party members and SS and SA men on how to organize secret movements within the German people. The national socialism idea never will capitulate.

It is worth half a kopeck if they are not backed by action. I cannot refrain from introducing a passage from Lenin in which he lashes out against the opportunists of the Second International for judging parties not by their actions, but by the dogmas which they put on paper. Says Lenin: "The opportunists of the Second International expose this sham. To deceive the masses the bourgeois democrats have always resorted to and will continue to resort to all sorts of catchwords. The point is to test the sincerity of these leaders, to compare their actions with their words. We must not be content with idealistic or quack phrases, but must search for the class reality underneath."

CHARACTERISTIC TRAITS

Such in the main are the characteristic traits of the Method of Leninism. It is the substance the provisions of the Method of Leninism are to be found in the teachings of Marx. But it would be incorrect to consider the Lenin method as a simple restoration of the Marxian principle. Lenin had not merely restored the critical and revolutionary method of Marx. He has carried it to further development and given it a concrete and practical basis.

Thursday—World Revolution.

Rebased on Associated Newspapers.

the air force, a new group of younger cadets is spending Sundays at I.T.S. following the footsteps of their older comrades. Each cadet is learning to control a squad and perform the other duties peculiar to a platoon commander. In addition to practicing an entirely new routine. After a few months of practice it is hoped that the new cadets will have an opportunity to lead the platoon. The new routine is more precise and intricate than which preceded it.

Free Enterprise Said Necessary In Reconstruction

SHERBROOKE, Que., Nov. 3.—(CP)—Arthur C. Morion, vice-president of the Herald Publishing Company, Montreal, said in an address prepared for delivery to a local service club, last night, that the post-war program must be based on the fundamental belief that individual initiative and free enterprise are the only means by which we can have free labor and free government."

He said government should take over many services—child welfare, protection of youth in industry, public health, all in various phases, the rehabilitation of the crippled child—"but between these necessary services and the assumption of the ownership and operation of all business enterprises there is a great difference."

Aluminum Program Success in States

WASHINGTON, Nov. 3.—(AP)—It cost more than \$10,000,000 plus, but the United States aluminum-for-war program is over the top, producing 100,000 pounds in excess of requirements every three months.

Arthur H. Bunker, director of the aluminum and magnesium division of the War Production Board, reported yesterday.

In timber cutting in the Thunder Bay district, and many others, he employed if they are available.

So-Ed. Courses Start Next Week

Registrations for the coming So-Ed. series has been progressing favorably and the sponsoring committee has set Tuesday, Nov. 9, as a deadline for further registrations. The courses this year are limited to 180 persons and although the deadline is brisk there is still room for those intending to take So-Ed. as part of their fall program if they act immediately. All persons more than 18 years old are welcome and the members of the armed services are especially invited to attend. So-Ed. will begin in Edmonton at the Y.M.C.A., next Friday and will continue each Friday evening being completed on Dec. 10. So-Ed. is a program of educational and recreational value planned for the interest and enjoyment of Edmonton's young people. The course covers practical politics, facing facts, and the world of the future. Public speaking, music, drama and the beginner's bridge are featured as well as an entertainment program including dancing with the U.S.A.F. orchestra, sing songs, moving pictures, a dramatic enterprise and other special numbers. Registrations forms are available at the Y.M.C.A., the Y.W.C.A. and public library and those intending to attend are urged to register as soon as possible. Send their registration forms to the Y.M.C.A. before Nov. 2.

Hi-School Hi-Lights

WESTGLEN
By Jack Gibbons
While regretting the departure of Miss M. Thackeray, former staff we welcome Miss J. I. McEae and R. G. Brewer.

To date Westglen students have backed their comrades in the service by buying 22 bonds amounting to \$2,000. At the same time they are vigorously promoting a war-stamp drive.

At 8 p.m. today a Halloween party will be held in the gymnasium for the purpose of which will go to the "Mills-of-Britain" fund. Westglen students, wearing annual awards, donated by the Fort Edmonton Chapter, I.O.O.F., and Jean Fraser for English Three, and Lawrence Levine, Shirley Diamond and Jean Fraser for social studies three.

Sports are well under way in the girls' basketball. Miss McEae as staff representative, has Jim Fleming as coach. Boxing and wrestling club has also been organized with C. Clark as staff representative. Jim Cowley, president, and Ken McLeod, secretary-treasurer.

The newly formed twing orchestra had its first practice under the leadership of Harry Palmer. Much enthusiasm and pep was shown.

EASTWOOD
By Susanna Alexey
Students have made a fine start in the new academic year. Clubs are showing their first signs of activity, and the Drama Group held its first meeting Mon-

day, electing the following executive: President, George Payne; vice-president, Doris Smith; secretary, Shirley Smith; treasurer, Walter Goretsky; with Irma Roll as additional executive member. The membership in the group is 14, and each member has worked hard to obtain the first points, which are titles him to join.

Another club to start functioning this week was the Chess Club, under the supervision of A. G. Sim. The non-scholarship consisting of 12 students, two claretos, a saxon and a king, were formed. The group held its first practice on Thursday under the supervision of A. Harris. Several of Schumann's pieces were played.

Training of the girls' inter-school basketball team under the supervision of Miss Harris and coach Bob Mitchell, assisted by Douglas Letton will be held at 4 p.m. Wednesday.

Nominations for team representatives have been received and are posted on the boards. The voting will take place Tuesday. The new points are in accordance with the written constitution which had been completed in the latter part of the last school term by Harry Cooper, assisted Alice Cronk, Debra Decker, Doug Baines and Doug Letton.

A Kidd former teacher with the Teminal High School staff has been added to Eastwood's staff. The new teacher, Mrs. J. E. Young, last year and the leave of absence for the year is granted to M. B. Crawford.

Still Shortage Rooms For Rent Registry States

With thrashing operations in the district completed, girls in the country are flocking to the city to look for a room. A serious housing shortage is being further aggravated, officials of the room registry, C.W.A.C., said today.

All residents for girls, such as the Y.W.C.A., St. Catherine's, Bessy Hall and the Catholic Hotel are filled to capacity. The rooms in private homes while they are waiting for permanent accommodation. The problem is further complicated as these rooms are in great demand for the travelling public.

The registry reports many urgent cases of service men's wives with small children who need rooms.

A monthly report issued gives the following figures for the month of October: Service men and women referred to rooms, 225; overnight accommodation, 122; rooms found at the station, 129. Service men and women and relatives assisted by the service women applied with night's lodging in the Y residence, 84. The rooms registry assisted 600 persons in finding accommodation and had 400 applications on file from 78 persons more who they are unable to help.

Demands Equal Role For France

Exclusive to The Edmonton Bulletin. ALGER, Nov. 3.—(UPI)—Charles De Gaulle, president of the French National Committee of Liberation, demanded that France be given an equal role with the other major Allied powers in the settlement of world issues arising out of the war.

Speaking at the opening session of the French consultative assembly in Algiers, De Gaulle declared that failure by the Allies to recognize French rights and dignity would be an "insult and a mistake."

The Committee of National Liberation now claims the right to present with the great nations the violations which France judges necessary to a settlement of this war and the organization of the world to come," he said.

France, he said, "must resume her great international role."

American countries report that 5 per cent. of their employees now are women.

NOTICE

CITY OF EDMONTON MUNICIPAL AND SCHOOL ELECTIONS 1943

PUBLIC NOTICE is hereby given that a poll has been ordered for the election of the Mayor and Council of the City of Edmonton for the next ensuing four years.

(a) Poll for the Mayor and Council of the City of Edmonton, to be held on Wednesday, November 10th, 1943, at 8 a.m. to 6 p.m.

(ac) Poll for the Mayor and Council of the City of Edmonton, to be held on Thursday, January 27th, 1944, at 8 a.m. to 6 p.m.

(ad) Poll for the Mayor and Council of the City of Edmonton, to be held on Sunday, January 30th, 1944, at 8 a.m. to 6 p.m.

Graduates

Lt. Shirley C. Weir, C.W.A.C. daughter of Mr. and Mrs. Harold L. Weir, of 1428 Stony Plain road, was among the girls to graduate with the rank of Lieutenant at the graduation exercises on Oct. 30 at St. Anne de Bellevue, Que. Lt. Weir formerly was a reporter on the staff of The Edmonton Bulletin. She has a sister, Constantine, who is also a member of the C.W.A.C. Two other Alberta girls, Margaret MacFarlane and Florence Lillian Fry, of Drumheller and Red Deer, respectively, were among those to obtain their Lieutenant pins at St. Anne. Lt. Weir obtained the third highest standing in a class of 47.

Japs Replace East Asia For Allied Attacks

Russell Brines, on route home on the exchange liner Gripsholm after nearly two years of internment in Japan in Manila and Shanghai, tells in the following dispatch of Japan's plan to hold the East Asia empire she has conquered. Brines served in the Tokyo and Kyoto bureaus of the Associated Press before he was captured at the fall of Manila.

By RUSSELL BRINES
Copyright 1943 by the Associated Press. PORT ELIZABETH, South Africa, Nov. 3.—(AP)—Japanese militarists are making every effort to mobilize all east Asia in anticipation of Allied attacks which they warn the people will be crucial.

Through censorship and internment walls these things are described:

1. The Japanese are anticipating a big Allied land smash against Burma.

2. Japanese militarists are still holding large forces in Manchuria to protect the rear against Russia and are probably maintaining other key garrisons in the Netherlands East Indies and Malaya.

3. They are exploiting to the limit of their abilities the materials which are all being diverted to war production and in which considerable forced labor is being used.

4. The controlled press is preparing the people of Asia for long, defensive battles ahead.

My impression is that Japanese land forces will fight desperately for the Netherlands East Indies and Malaya and their vital raw materials, and the strategic areas of central and north China and Manchuria, from which the Allies could threaten Japan's industrial areas from the air.

Travelers report that French Indo-China—sole section of east Asia that is not completely Japanese-dominated—is becoming one of Japan's major military bases.

On National Holiday Marshal Stalin Expected To Make Important Speech During Coming Weekend

Edward W. Beattie, veteran British United Press war correspondent, has learned that Josef Stalin is expected to make a broadcast of great moment in connection with the Soviet national holiday that week-end. In the following dispatch, he draws on his knowledge of military tactics, gained on the battlefields of Europe, Asia and Africa, and his observation of the Russian situation in the position from which Stalin may survey the war this week-end.—EDITOR.

By EDWARD W. BEATTIE

LONDON, Nov. 3.—Josef Stalin is expected to step to a microphone in Moscow this week-end to broadcast to the world a mighty triumph of Russian arms—perhaps the great Nazi rout in history.

Students of Russian propaganda technique are prepared for a lengthy address and order of the day by the master strategist of the Red armies in connection with the Soviet commemoration of the 25th anniversary of the October revolution which brought the Bolsheviks to power.

Without counting too many unheated chances, one may envision the major outcome of Stalin's military picture a week end, whether he explores a variety of subjects or contemplates it with pipe-puffing satisfaction in the Kremlin.

GREAT SUCCESS
He will be in a position to list perhaps the greatest successes won by army, navy and air force, booty and capture of thousands of prisoners as the Germans wriggle westward to avoid total encirclement.

No doubt there will be new victories during the next few days he will have to survey the army's westward surge. Military observers here foresee a series of attacks along the western edge of the German and Soviet front lines. They will be desperate efforts to stall the Russian long enough to allow the Germans to escape east of the Krivoi Rog-Nikopol line.

The Germans are extracting themselves from the Szevier bend and the south at a high cost in manpower and equipment, leading military experts here to predict that they cannot be used as first line troops until they have been taken out of the line and reorganized.

Hill's loss of guns, tanks, fuel, food and munitions alone—disregarding the killed and maimed man—has been sufficient since the Russians burst across the Dnieper to have crippled most armies.

ONLY POSSIBILITY
Only sea and air evacuation of the Crimea now is possible, fledglings as Kerch reported by the Ber. in radio indicate Stalin intends to clean up the peninsula without delay.

The Germans are believed to have left no more than four or five divisions to contest control of the Crimea as long as possible. They know that when they are driven from the peninsula, they will be forced to fight a desperate battle for the Crimean isthmus.

Stalin's anger at the ruin of Red industrial centers will be tempered somewhat by satisfaction over the recovery of huge deposits and workshops constructed by the Germans in the Taman peninsula.

Zaporozhye, Dnepropetrovsk and Melitopol area which the Nazis believed would be their indefinitely.

In the north the Germans have admitted heavy fighting around Gornel and Vilebik. The Russians are silent regarding this fighting as is their usual practice until they have a full-blown victory to announce.

This too, may ripen into material for Stalin's holiday survey.

Believe Japs' Ships in Hiding

By BERNARD COVITT
Exclusive to The Edmonton Bulletin
Copyright, 1943, by British United Press

PORT ELIZABETH, South Africa, Nov. 3.—A mysterious shortage of Japanese shipping at Yokohama, Tokyo, Shanghai and Manila was observed by Allied representatives returning from Japanese internment aboard the exchange liner Gripsholm, they said today.

Tokyo virtually replaced Yokohama as the principal Japanese seaport, they said, but shipping is amazingly scarce at both ports.

In the absence of any other reports, the Japanese have told each other that available vessels were "tied up in the southern regions" carrying military supplies, the representatives said.

Some observers believed, however, that Allied submarines had driven Japanese ships into hiding.

West Coast Ship Tie-Up Forecast If Strike Lasts

VANCOUVER, Nov. 3.—(UPI)—Every coal-burning coastal and inland ship sailing out of Vancouver and Victoria will be forced to wait in the Western Canada coal mine strike lasts 10 days or two weeks, operators of the vessels forecast yesterday.

Tie-up of the coal-burning ships could not be averted by action of the coal controller, Tom Marshall, western representative, declared.

"There are no large stocks of coal stored up anywhere in the country," Mr. Marshall said. "This office would be powerless to prevent the ship tie-up."

"There is nothing I can do to better that situation under present circumstances."

Strong Earthquake In North Recorded

SEATTLE, Nov. 3.—(AP)—An extremely strong earthquake at an estimated 1,400 miles northwest of here began recording on the University of Washington seismograph at 7:32 a.m. P.M.T. today, Dr. How and A. Combs, seismograph operator, said.

The first shocks were of such violence as to knock the needle of the seismograph drum and another one had to be substituted. The shocks continued intermittently until 9:50 a.m. and slighter tremors still persisted at that time.

The earthquake may have centered in the Gulf of Alaska or somewhere in the territory.

Funerals Disrupted As Grave Diggers Strike at Chicago

CHICAGO, Nov. 3.—(AP)—Strike grave diggers at St. Adalbert cemetery disrupted 15 funerals yesterday when they established a picket line outside the cemetery gates and refused to allow vehicles to pass through. Pallbearers, undertakers and priests had to wait at the 15 coffins to the cemetery vault, where they were placed temporarily. Julius Strakowski, cemetery superintendent, said the 70

Miss E. Sartain Guest of Club

The Soroptimist club of Edmonton entertained Monday night in honor of Miss Emily Sartain, English artist who is visiting here from Vancouver. Miss Sartain, president of the club was hosted, assisted by Mrs. Ellen Stewart, Miss Gretchen Clark, Mrs. C. Melrose and Miss Mary Cathlin.

Miss Sartain showed some of her paintings to the group and gave an informal talk on art. She also gave a short history on the wild flowers of British Columbia.

Members present were Mrs. Dora Klud, Dr. Elise Dunn, Mrs. Welch, Mrs. Marie Mutari, Mrs. Margaret Fraser, Mrs. Alice Brewer, Miss Mabel Patrick, Mrs. Kay Lyons, Miss Louise Holmes, Miss Winifred Gardner, Mrs. Grace Hoyle, Mrs. Louis Young, Mrs. Vera Campbell, Miss Gladys Haeves, Miss Kay Candy and Miss Jennie Wilson.

Australian Women In North Coast

MELBOURNE, Nov. 2.—(CP)—When the advance guard of Australian women's troops arrived in the north, they slept for the first few weeks on the ground. They had a waterproof sheet and three blankets each and gumtrees for overhead cover.

They arrived during the northern winter, expected a sunny climate and got temperatures as low as 32 degrees. A Melbourne correspondent said: "It was just like home to me, but the Queenslanders shivered."

The girls didn't mind the discomforts. They were attached to an A.L.F. unit which had been sent to Middle East, and realized their "handbags" were mild to say the least.

The A.W.S. troops sleep 20 to a large dormitory with an A.W.S. sergeant in charge of each. They have tropical beds with straw pillows, a pillow, and the issue of three blankets. A never heard of but to be in the A.W.S. in tropical zones, this will be partitioned inside, with two girls in each cubicle.

Until such times as the dormitories are equipped according to standard regulations, the A.W.S. devise their own amenities. Lacking cupboards and wardrobes, they hang their clothes on lengths of planks or ropes. Bedside tables are borrowed and packing cases painted and draped with chintz and dyed sugar bags. And always there are numerous pictures of the home folk, of brothers, friends and husbands, invariably in the uniform of the fighting forces.

OVERTURNED TURTLES
Giant turtles furnished ancient mariners with fresh meat on long voyages. The turtles were kept overturned and helpless until needed for food.

If You Suffer 'PERIODIC' FEMALE PAIN
What Makes You Weak, Cranky, Nervous?

If you, like so many women and girls suffer from cramps, headaches, backache, "irregularities," periods of the blues—due to functional, menstrual disturbances—

Effective action—take Lydia E. Pinkham's VEGETABLE COMPOUND. It not only helps relieve menstrual pain but also helps restore normal health. This is because of the soothing effect on your system. Women's health is your own. Take Lydia E. Pinkham's Compound today. Build up resistance against such symptoms. Thousands upon thousands reports. Even a Rice stomachic. Made in Canada.

VESTED INTEREST

A powder blue vest-front cover with shimmering all-over floral design. Of black crepe, it has short sleeves and corded belt and is worn with a winged cap and well and black suede gloves. It is good example of the glitter-dress rule that when decoration is eye-catching, lines of the dress must be extremely simple.

Dr. Egerton Pope Re-Elected President of Museum of Arts

AT THE ANNUAL MEETING of the Museum of Arts, held Tuesday evening at the Civic block, the slate of officers for 1953-54 was elected. Dr. Egerton Pope was re-elected president. His vice-president, Dr. E. P. Pope and Julian Garlick, vice-president; J. Hodgson, honorary treasurer; and E. D. C. Thomson, honorary secretary.

In his report as director of the museum, Dr. W. Hedley said that the work of the museum is, first, to collect works of art from the current and past productions particularly in this province, and as far as possible throughout Canada; second, to display in the gallery collections of works of art from various sources, and done in various mediums; and third, to carry on the Educational work, particularly with the youth of the city.

SMALL REGISTRY
The big difficulty, he said, is that the number of people who come to the gallery. Compared to other cities of its size, Edmonton has a small, somewhat primitive gallery, but that should not excuse people for not visiting it. He said however, that the members hoped for co-operation from educational bodies, and superintendents, principals and teachers in the city.

At the present time, he said, a gallery display is hanging on the wall, and in December, the Museum plans to display the work of children up to 14 years of age, across Canada. In March, 1954, the Academy collection of works chiefly in oils, the banner exhibit of the year, will be presented, and during January, the annual exhibit of the Alberta Society of Artists will be held. An exhibit from the Calgary Art Club, and from Grant Macdonald of Kingston, will be shown in February. In May, there will be a "one man show" by H. G. Glyde, who is sending about 30 pieces of his work. In May, there will be the work of the children's classes, and the "Student's" club, and June collection of art of members of the museum. This latter display will stay in the museum until the fall of 1954.

GUEST SPEAKER
Dr. W. G. Hardy, of the University of Alberta, was guest speaker, and chose as his topic, "Quest of Beauty." He showed lantern slides of Italy, showing its historical places, its temples, churches and palaces. He also showed pictures of battle grounds where the Allied forces fought in combat, or have been in combat.

Two pictures, donated by H. H. Carter, K.C., Dr. Harold Orr, and the late John Smith, were presented to the museum by Mr. John Inrie. The pictures were "Down, Edmonton Airport," by W. J. Phillips, and "Edmonton, 1943," by H. G. Glyde. Honorary patron of the organization is His Honor, John Campbell Brown, lieutenant governor of Alberta.

Ukrainians Plan Bazaar

Orthodox church will hold its annual bazaar in the parish hall, 1803 56 street, on Thursday, Friday and Saturday.

A special program has been planned for Saturday, when the Young People of the church will take full charge of the bazaar. Mrs. F. Gowda, president of the Society, is in charge of arrangements. Others assisting are Mrs. N. Premo, Mrs. J. Olenko, Mrs. Cherenchuk, Mrs. J. Polonich, Mrs. J. Huk, Mrs. D. Vanda and Mrs. P. Lazarowich.

Jewish Women Request More Used Magazines

The Council of Jewish Women is making an urgent request for additional thousands of magazines.

Information from the War Service Suppressor at Ottawa and from the Navy League of Canada indicates that soldiers, sailors and airmen are urgently in need of reading material. The Council is appealing to people to turn in all magazines, preferably 1943 editions, at any of the boxes situated in the downtown area or to their permanent depot at 1803 56 street, in the Corona hotel building.

Nearest relative of the diamond is greasy, black graphite.

The Personal Column

THE CAVU, club is sponsoring a dance to be held in the Masonic Temple Friday evening. Plans are being made for the dance to be in war charities. Mrs. Alexander Brown is co-convenor and her committee consists of Mrs. A. Melton, Mrs. J. Nelson, Mrs. Robert Randall, Mrs. A. Olson, Miss Kay Card, Mrs. Ken Saunders. A number of other planning parties were the dance, including Mrs. J. Nelson, Mrs. North, Mrs. W. Clark, Mrs. H. A. Brown and Mrs. Jack.

PEP WARDROBE WITH BOUTONS
NEW YORK, Nov. 2.—(CP)—You can bet on buttons and buckles to be the fashion of the winter. You who sew your own will find a host of inspiring, original articles at the notion center of your favorite store. There are all types from huge buttons of real silver and gold on lustrous to lightest shades in wood, glass and plastic.

Bright girls are doing tricks with buttons this year. One of the best, which is sweeping the country, is the right now, is a bow-tie arrangement. It's simply a piece of brown or gray ribbon drawn through a top collar shell buckle, which matches the buttons on the blouse.

College girls are making them in all colors for wear with tailored blouses, as the newest version of the bow-tie. To fasten it on, simply wire or sew a safety pin to the cross bar of the buckle.

The fashion of using buckles for brooches has become a reality. The effectiveness of a brooch of shocking pink ribbon pulled through a rhinestone-studded buckle, or a plain black velvet dress. And if you like you can make earrings to match from an extra pair of buttons.

Curling
Albion Avenue Ladies' Curling Club meeting in the club rooms, Monday at 2:30 p.m.

SUPERFLUITY SHOP
Especially worthy of note at this time, is a 50-piece dinner set, a 50-piece luncheon set, a 50-piece breakfast set, a 50-piece tea set, a 50-piece coffee set, a 50-piece dessert set, a 50-piece fruit set, a 50-piece candy set, a 50-piece nut set, a 50-piece ice set, a 50-piece cream set, a 50-piece sugar set, a 50-piece salt set, a 50-piece pepper set, a 50-piece mustard set, a 50-piece vinegar World's Toughest Battle School Prepares Canadians For War on all Fronts Soldiers at Vernon Face Live Bullets and Explosives Under War Conditions

Canada's chief battle school hardens her men for actual combat by simulating war conditions. These men advance through a smoke screen laid by mortars.

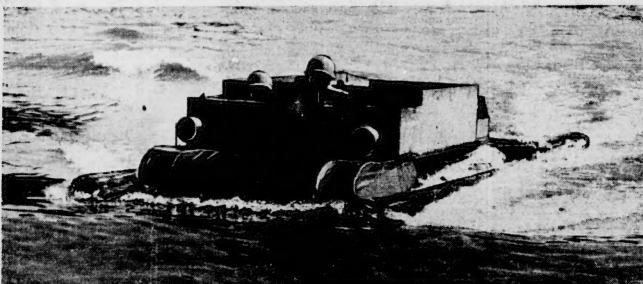

Commando tactics are part of the battle drill. This is the final action in stalking and killing an enemy sentry. In a flash, he claps a hand

over the sentry's mouth to prevent outcry and with Commando Dagger neatly flicks jugular vein. CSM Laurie Ferrier and CSM Ernie Aziz are actors.

Training at school near Vancouver, B.C. are Corp. Jack France, Toronto, Corp. Bud Hubbard, Tilbury, Ont., and Corp. Maurice McGill, Corunna, Ontario.

Every kind of obstacle is met and overcome. Here the soldiers in training have succeeded in floating their 5-ton Bren gun carrier with logs and

are able to ford the river as though in an amphibious craft. Self-reliance and ingenuity are traits that are encouraged at the Vernon battle school.

Night training as well as day is carried out with live ammunition. Here a soldier learns to duck, as the live tracer bullets pass over his head.

So, tempered by the fire and sound of live ammunition, the Canadian soldier knows the real thing long before he meets the enemy in combat.

Still one of the toughest obstacles in warfare is barbed wire. And without benefit of gloves or special equipment our men learn how to handle it.

Crawling through a creek and under live fire from Bren guns, the soldier must learn to protect his gun and keep it in firing order at all times.

Coffee and doughnuts come as a welcome respite to men taking the battle course at Vernon, B.C. After battling barbed wire, mud and water, they need it.

Lance-Corporal Henry Wong adjusts the face netting of Lieut. Howard MacAllister's sniper camouflage suit. Corp. Wong hopes to use one against the Japs.

Trainees learn to drop from a truck moving at 25 miles an hour through a smoke screen laid by carriers. They turn a complete somersault and land on their feet running. It's very easy, once you know how—they say.

A pineapple welcome awaits the enemy, through this small opening. With his left hand he holds a sandbag which he uses over hole to guard against blast.

Village fighting is an important part of the training. Here is an attack under way against an enemy-held house in the specially built village where this method of fighting is learned from the Japanese.

May Use Radio For Instruction Remote Students

In an effort to overcome effects of the teacher shortage at remote Alberta schools, the department of education is planning to make use of radio facilities to reach and instruct students in areas where schools are closed down. Hon. Selon E. Low, minister of education, said today that the present province is some 200 teachers short.

University of Alberta's radio station, CKUA, will be used in broadcast lessons, Mr. Low said. The broadcasting is being done in co-operation with the correspondence branch of the education department.

The minister estimated an additional \$10,000 will be required to enable CKUA to carry out the education broadcasting plan. This sum will allow the station to broadcast lessons in English and French daily.

hours of broadcast.

With improved equipment now in use at the station, installed several years ago at a cost of \$30,000, it is planned to use its facilities as much

as possible to help communities in remote areas of the province, Mr. Low said.

While in Ontario recently, the minister inspected operation of mobile school units, which are also being considered to help out in the teacher-shortage.

"The difficulty in Alberta is that many of the districts needing instruction are not on the railway, and buses or some other means would have to be used here. The matter is under consideration," he commented.
